About the Event

In partnership with the North Wales CAMHS School In-Reach team, TISUK brings Practitioners a fantastic day of knowledge, development, learning and inspiration. With a theme of heroes, four fantastic speakers will share their expertise with an inspiring range of talks.

This day will focus on encouraging those who work with children and young people to offer up space for them to tell their story in whatever way they can, so that they can be heard, supported and connected with. We recognise that whilst relationships harm, relationships also have great capacity to heal.

The day will provide practical skills and vital relational interactions that can bring transformational change to those with trauma, resulting in healing for self and society.
